RIO STOCK TRADING GBP

1 January 2025

MANAGER COMMENTS

RIO Stock Trading GBP gained 0.25% during December, this positive return recorded while the accounts benchmark, The FTSE 100, fell -1.38%. I was able to avoid the downside as I had taken action early in the month to sell 64% of the equities held, this had presented me with the ideal opportunity to reacquire the stocks at a far lower book cost. The account is positioned well as we move into January.

This investment has an excellent track record and has filed 16 consecutive gaining months. The returns for the two- and three-year periods are 24.90% and 55.90% respectively and the total gain of over 248% since launch is outstanding.

The Market – What will 2025 bring? Well, markets have certainly tempered their expectations for rate cuts – just two are expected for the Bank of England, while the Fed's third consecutive cut to close out 2024 may be its last for a while.

INVESTMENT OBJECTIVE

RIO Stock Trading GBP is a high-risk trading platform through which RIO can invest in currency, UK equities, and the commodity market. The account may also invest in other high-risk traded securities, where the potential gains are deemed to be in line with the risk-reward ratio, at the discretion of the investment manager. The trading strategy favours a midterm investment of between 2-3 years due to the expected short-term volatility.

As an active investment specialist, market volatility can create a prime investment opportunity and RIO expects further volatility, especially against the current backdrop. Geopolitical tensions are at fever pitch as the effects of Russia's invasion of Ukraine make negotiations tense. The knock-on effects of this are reflected in the stock values of UK-listed companies.

RIO Stock Trading GBP will focus predominantly on trading those entities listed on the FTSE 100 index and has already identified several trading opportunities.

Please note that this investment is only suitable for those prepared to accept the additional risk, in exchange for the potential reward.

INFORMATION

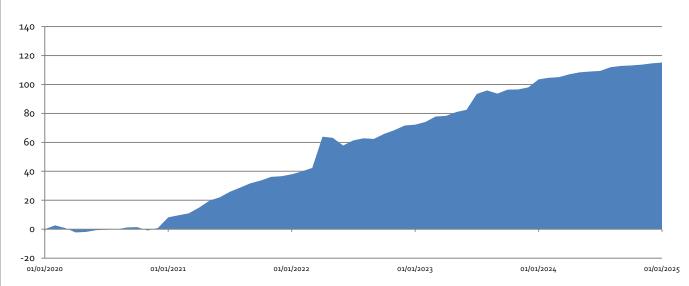

NAV	348.30
Launch Date	June 2016
