

## **Structure**

The RIO Currency Concept Account is an actively traded investment which represents a rare opportunity for members to invest in traded currencies.

It has been offered to provide members with an additional opportunity and adds weight to the Clubs current product range of stock and precious metals.

The investment has been established to exclusively trade 'the cable' namely the British Pound and US Dollar currency pair, which is one of the oldest and most widely traded currency pairs in the world.

The Pound / Dollar positions will be traded without the use of any form of gearing or leveraging, but will instead use a simple cash position to execute trades.

The minimum investment level is set at £30,000.00.

The investment will hold small cash reserves to cover charges. In doing so it can be more efficient as it will not be forced to liquidate positions to cover costs, which could ultimately be detrimental to the potential returns.

The investment is made up entirely of currencies, which will represent 100% of the asset class.

This allocation means that the value can be realised almost immediately although the account remains bound by its valuation dates.

RIO has a proven track record of successfully trading the cable within investment structures over the past 20 years.

Share holders wishing to redeem their investment within the first three years, may do so although the following restrictions and penalties will apply;

Redemptions within the first 12 months will only be permitted with the agreement of the directors.

A redemption charge of 8.00% will be levied within the first two years of investment; this fee is reduced to 4.00% for a redemption made in year three.

A share holder may only affect a redemption by forwarding to the Company a redemption application, or signed notification, which must be received by the Company at least 45 calendar days prior to the maturity date on which the application is to be effected.

Except in extraordinary circumstances such as, for example, an inability to liquidate existing assets, or the default or delay in payments due to the Company from brokers, banks or other persons, payment of redemptions will be made within a reasonable time and normally within forty-five calendar days following the maturity date, provided the Company has received all the documents required for redemption.

#### **Compulsory Redemption**
