

MANAGER COMMENTS

The account has produced five consecutive gaining quarters with a net return of 22.51%. The general election in the last quarter of 2019 produced the ideal conditions to trade and I was almost certain that a conservative win would produce a rally in Sterling. I positioned the account for exactly that outcome and sold Sterling at 1.2850 and 1.29. As the markets priced in a Boris Johnson victory I reversed 100% of the positions buying Sterling at 1.33, 1.335 and 1.34 taking profits.

INVESTMENT OBJECTIVE

The RIO Currency Concept Account is the latest investment product to be designed and launched by RIO. It will take full advantage of the continuing Brexit volatility to place, execute and close currency trades. It is hoped that by successfully forecasting the future movement in currency and exchange rates, profits can be made for those invested as the exchange of one currency for another enables the account to achieve potential capital gains.

Any investment which has the potential to make gains in this way must inherently have the potential to make a loss. That said, the strategy utilised and the trading approach are both designed to offer members the potential of substantial gains whilst limiting the downside risk. Unique products such as this have been solely created for our membership and as always are not available to the general public.

The investment objective is to provide members with a convenient means of participating in an actively traded currency portfolio, primarily currency oriented, aimed at achieving capital appreciation. The secondary objective is to provide liquidity.

INFORMATION

NAV	122.51

PERFORMANCE FOR CALENDER YEARS

VOLATILITY & RISK (Since Launch)

Annualised Volatility	8.19%
Return for Period	22.51%
Best Quarterly Return	8.11 %
Worst Quarterly Return	2.15%
Risk / Reward Ratio	22.51:1

The risk/reward calculation is a division of net profit (the reward) by the price of your maximum risk. Any investor should determine their acceptable risk, but it is always best to be more conservative with risk than aggressive with reward.

This document is not an offer of investment. Subscriptions for shares in the RIO Currency Concept Account can only be made on the basis of the current literature and The RIO Club operates strictly on a referral only basis. Past performance is not a guide to future performance and there can be no assurance that the accounts objective(s) will be met. The value of investments and the income from them can fall as well as rise and is not guaranteed. Investors may not get back the full amount invested. Changes in the rates of exchange between currencies may cause the value of investments to diminish or increase. Current tax levels and reliefs may change and depending on individual circumstances this may affect the investment return. For further information please refer to the terms and conditions.
